

The language of the hunter has a favor all its own. Thus, a friend of mine describing the effortless way his bird dog floats across a field said he had a "sundown trot." Which I gathered meant he was going at sundown the same way he was going when he got up in the morning. Which also means a dog can do more than a man can.

It was announced yesterday there will be a meeting in the Hempstead county courtroom at 10 a. m. Monday, August 13, to consider setting up an artificial breeding program for Hempstead county cattle.

The program involves organizing a county unit of the Arkansas Artificial Breeding association, which is headquartered in Fayetteville. Its manager, J. Austin Parla, will attend Monday's meeting here and explain the association plan and its requirements of local cattle owners.

Hope Chamber of Commerce and County Agent Oliver L. Adams are promoting the Monday meeting, and it deserves 100 per cent support by the stockmen. To organize a local unit will require a membership representing from 800 to 1,200 cows. We have many causes leading to new organizations, but few as vital as the programs looking to improvement of the quality of livestock herds.

The traveler judges the countryside he passes through by several factors: Its people, its farm buildings—and, particularly, the appearance of its cattle. A multitude of fine-blooded cattle bespeaks an informed and enterprising countryside. This, plus self-interest of cattle owners themselves, is why Monday's meeting should be fully supported.

Byrd Group Keeps Control of Virginia

Richmond, Va., Aug. 9 —(AP)—Virginia's dominant Democratic organization, though it suffered two major setbacks, emerged from Tuesday's primary elections virtually as strong as ever.

The conservative faction, headed by United States senator Harry F. Byrd, lost two senate races in areas where it had expected touch-and-go battles. But it assuaged its disappointment by securing nearly a dozen sweep in other contests in the off-year voting.

In scathing Princess Anne county, a "people's ticket" bitterly challenged the organization at every turn — for local offices as well as state legislative seats. The "nicks" charged the county electoral board with mishandling absentee (mail) ballots and a court ordered 470 of these impounded. But in the showdown the Byrd faction swept the field.

Control of the state legislature never was at stake. Only 14 of 40 senate seats were contested in the primary, and only 37 of the 100 seats in the house of delegates. The organization was defeated only in senatorial races in the heavily-populated Newport News and northern Virginia areas.

Attorney Victor C. Wilson turned back Byrd-faction stalwart G. Alvin Massenburg, former speaker of the house of delegates, in the Newport News area election after a see-saw struggle. In the Fairfax-Alexandria district, near Washington, Senator Andrew W. Clarke continued on Page Two

Senate Probe Begins Check on Boyle

St. Louis, Aug. 9 —(AP)—Two senate committee investigators came here today to check into the employment of William M. Boyle Jr., Democratic national committee chairman, by a St. Louis firm which borrowed \$565,000 from the Reconstruction Finance corporation.

The investigators, Carmine S. Bellino and William A. Leece, are making a preliminary inquiry for the senate's investigating subcommittee of the committee on expenditures in executive departments.

Officers of the American Lithofold Corp., here, a printing firm, who already have testified before a federal grand jury investigating James P. Finnegan's official conduct when he was internal revenue collector of St. Louis, were to be questioned by the investigators.

The Post-Dispatch recently disclosed Finnegan was on the firm's payroll at \$1,000 a month and Boyle at \$500 a month. It said Boyle had received \$8,000 from the company and went off the payroll after he was advanced from vice chairman to chairman of the Democratic committee in 1949.

However, the newspaper says Boyle's former law partner, Max Siskind, still is on the firm's payroll at \$500 a month.

American Lithofold's applications for RFC loans were turned down three times before they were approved. The Post-Dispatch charged that RFC approval came after Boyle and Finnegan were employed by the company.

Hal Boyle Lifts a Toast to South Dakota: Here's to the Land of Infinite Variety!

By HAL BOYLE

Sioux Falls, S. D., Aug. 9 —(AP)—When a guest departs, he usually drops his host a bread-and-butter note.

And on leaving South Dakota, I'd like to write a thank you note to a state where I've had a world of fun and good food. The main thing South Dakotans complain about is that the rest of America doesn't seem to know what they've got out here in "the land of infinite variety."

"Maybe you'd better start off your article by pointing out that South Dakota is one of the 48 states," an editor remarked dryly.

What do they have out here, where the deer and the antelope played and the buffalo roamed well, you can still find buffalo, deer and antelope—and some of the nation's greatest Indian reservations.

They've got 10 million hats, ear-to-grins, and a mile-deep miles of waving corn and wheat, and rolling oceans of grass studded with fatting herds of cattle, and they've got dinosaur tracks in stone. And not far away they've got a big B36 airplane, where modern monsters of the sky rise to guard our northern frontiers.

South Dakota is a mixture of the old west and the new west. The tourists love the legends and symbols of the old west, such as the small cemetery above deadwood, where Wild Bill Hickok and Calamity Jane lie side by side. Or they like to visit the homestead ruins, which has yielded more than \$550,000,000 in gold since 1875.

The Indians are still willing to play Indian for the tourists. But for themselves they like to play cowboy.

"Most of them prefer to dress like cowboys," said one oldtimer. And their ambition is to be ranchers.

The buffalo are on government preserves now and can thumb beards at hunters. But sportsmen fly from both coasts here to hunt Chinese pheasants. They are almost as beautiful as birds of paradise.

All South Dakotans love their famous black hills, a wonderland of fish and game where the Indians believed the great spirit of Manitou dwelt. Once a year they made a pilgrimage into the hills to fashion their arrowheads and tomahawks.

Several years ago a few Sioux braves climbed atop Bear Butte, a former Indian signal post, for a fast in honor of Manitou that lasted several days. When they came down, spiritually exultant but physically starved, a white man asked what they'd like to eat first.

"Ice cream," grunted the first brave.

The black hills are free of snakes, and Potawatomi Creek Johnny, an old prospector, used to tell why. He said all the snakes in the hills once attended a convention and decided to hold a sun dance. As they were circling, one lazy snake caught on to the tail of the snake ahead in order to get a free ride. Soon all had done the same thing.

"Then they got hungry and began to swallow," Johnny said. The more they swallowed the smaller the circle got. Finally they all just swallowed each other up—and the circle disappeared.

And there hasn't been a snake in the black hills since.

The badlands, where the morning sun flickers in brilliant colors on stones eroded in fantastic shapes by wind and rain, are like you would imagine the surface of the moon to be. Some one in our ear asked what I thought they resembled. "Like my bedroom on an average morning," I replied absently.

"Oh, they do," said my wife, Frances. And after that there was silence in the car for several miles.

We rode across the surging prairie, huge waves of eternal grass, great green factories for the herds, and a little cooler weather came to part of the Panhandle and the Texas coast.

15 Dead in Texas Heat

Dallas, Tex., Aug. 9 —(AP)—Texas counted 15 persons dead today from the current heat wave that has scorched the state for almost two weeks. In at least four other deaths, heat was listed as a contributing cause.

Weather observers said there was only a little relief in sight. Houston reported two deaths from heat strokes last night — Victor Emanuel Anderson, 51, and Mrs. Dorothy Good, 64.

More than 25 points yesterday reported temperatures of 100 degrees, with the hottest spots being Presidio on the far-west border of the state. There the thermometer hit 114.

No Relief From Heat Is in Sight

Little Rock, Aug. 9 —(AP)—No relief from August's scorching weather was in sight for most of Arkansas today.

But the U. S. weather bureau here said, scattered thundershowers would make it slightly cooler in the north portion of the state this afternoon and tonight.

The highest temperatures recorded yesterday was 102 degrees at Fort Smith and Dardanelle. It was 101 at Texarkana, 100 at Newport, Morrilton and Arkadelphia, and 97 at Little Rock.

"Practically the same" temperatures were forecast for today.

Reds' Sharp Reply Tells Ridgway UN Is 'Fabricating'

At Long Last Mr. Sinatra Decides It's About Time He Got Himself a Divorce

Reno, Nev., Aug. 9 —(UPI)—Cromer Frank Sinatra said today he will file for a Nevada divorce against his wife, Nancy, so he can marry sultry movie Queen Ava Gardner.

Sinatra flew to Reno from Hollywood last night to fulfill a two-week singing engagement at the Riverside hotel. From Reno, he goes to the Desert Inn at Las Vegas for another two-week singing date.

Sinatra arrived in Reno late last night from Hollywood to fill four weeks of singing engagements in Nevada, two weeks at the Riverside hotel here beginning tonight and two weeks at the Desert Inn in Las Vegas beginning Sept. 1.

"I'm all settled," he told newsmen in his hotel suite. "I'm going to file a Nevada divorce as soon as I can."

Nancy didn't want to come up here and go through the divorce action herself, but she had no objection to my coming up here and spending the necessary six weeks."

Sinatra said he probably will file the suit in Reno and charge mental cruelty, the most common grounds in Nevada divorces. He said his wife might file a cross-complaint and then take the divorce herself without even coming to Nevada.

When newsmen asked him if he planned to marry Miss Gardner, with whom he recently spent a hectic vacation in Mexico, he replied: "I presume I will."

The crooner denied reports that he and Ava had had a falling out in Mexico over his frequent brushes with newsmen and photographers.

"There's no cooling between us—that's just one more ridiculous story that came out of Mexico among others."

Sinatra said his wife, whom he married in 1939, has been "perfectly swell" about the divorce. He said she had agreed to continue financial arrangements and details of the custody of their two children as they were spelled out in her separate maintenance suit last year.

The suit ordered Sinatra to pay Nancy one-third of his annual gross income up to \$150,000 and 10 per cent of all above that. However, the amount may never drop below \$1,000 a month.

She also was awarded their ranch home, furniture, Cadillac and the custody of the children.

Sinatra said Miss Gardner "may" come to Lake Tahoe sometime after Aug. 2, when his Riverside engagement is over, and she may also "catch one of my shows" at Las Vegas.

Dr. Etta Champlin is given honor by Osteopath Group

Dr. Etta E. Champlin has been notified by Dr. R. C. McCaughan, executive secretary of the American Osteopathic association, with headquarters in Chicago, that she was the recipient of an honorary life membership in the association when this recognition was conferred upon her by the trustees of the association during the annual convention in Milwaukee, July 16-20.

Dr. McCaughan stated, when notifying Dr. Champlin: "Your continuous record of membership in the national association made this consideration possible, and you will be pleased to know that the Arkansas Osteopathic Association of Physicians & Surgeons highly recommended that this honor be bestowed upon you because of your loyal service to the osteopathic profession in that state for so many years."

Dr. Champlin has held continuous membership in national and state association during the years she was in active practice, all of which were in Hope, where she and her husband, Dr. Charles A. Champlin established an office in July, 1912.

Communism Rolls in U. S. Drop From 52,000 to 37,000

San Diego, Calif., Aug. 8 —(AP)—J. Edgar Hoover says Communism party membership in the United States has decreased from 52,000 last year to 37,000 at present, but the danger has not decreased.

The director of the federal bureau of investigation said in an interview yesterday that the remaining Communists in this country are more intensive and fanatical.

Hoover, in California for an annual physical checkup, pointed out that top leaders had been convicted of conspiracy to overthrow the government by force and that second level leaders were arrested last week.

Third level Communists leaders in U. S. soon will be rounded up, he added.

St. Petersburg, Fla., Aug. 8 —(AP)—Roasted possum and sweet potatoes are competing with high-priced meats on dinner tables hereabouts.

"They're our biggest selling meat item," says Nelson. We sell em as fast as we can raise em."

Desperado Dies With Guns Flaming

Ter, Ark., Aug. 9 —(AP)—Billy Davis, a 22-year-old desperado who vowed he'd never be taken alive, was blasted to death last night with a flaming pistol in his hand.

FBI agents who had tracked the Tennessee prison parolee for nearly a month surprised him at a farm home and shot him to death as he grappled with a sheriff's deputy.

Davis fired once from a .22 caliber target pistol before falling with two bullets in his chest and one in his left arm, the FBI said.

Sheriff G. H. Nobles of Dekalb county and FBI Agent George D. King reported the death of the Columbia, Tenn., gunman.

Behind him lay four last violent days of reckless flight.

Davis had dodged and fought his way through Alabama, Georgia and Tennessee to a farm near this remote northeast Alabama community.

Customers' Corner
Have you noticed that chickens generally are plumper, wealthier than they were a few years ago?
The principal reason for this is the "Chicken-of-Tomorrow" breeding program, sponsored by A&P with the cooperation of the poultry industry.
This six-year program has resulted in chickens that mature when they are younger and more tender, and have more meat in relation to bone.
Why don't you try the superior chickens at your A&P and let us know what you think of them? Please write:

Aluminum Plant Permit Decision Near

Washington, Aug. 9. — A decision on a proposed new aluminum casting plant at Jones Mill, Ark., may be reached by the government next week.

Rep. Norrell (D-Ark.) said yesterday that no exact date had been set for the next meeting of the defense production administration view board. But he said he has been informed that the Arkansas plant question probably would come up for decision at the meeting.

Week's Death List in State Rises to 12

By The Associated Press
Arkansas' weekly violent death toll rose to 12 Wednesday when a fisherman drowned near Arkadelphia and an elderly man was hit by a truck in Jonesboro.

Dave Montgomery, about 50, a carpenter who lived near the market (Clark county), drowned in the Ouachita river north of Arkadelphia. He apparently was in a boat putting out a trolling when he fell into the swiftly running water.

Kidney Slow-Down May Bring Restless Nights

When kidney function slows down, many folk complain of nagging backache, headaches, dizziness and loss of sleep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is bothering you. It's a common cause of stress and strain, overexertion or excessive cold or warm diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills, a mild diuretic, used successfully by millions for over 60 years. It's amazing how many times Doan's gives happy relief from these discomforts. Helpless! Get Doan's Pills today! (See Doan's Pills today!)
